# ABOUT OUR COMPANY

Auto & Boat Relocation Services has provided specialized transportation services of automobiles and boats for almost 10 years. Based in the metro Hartford CT area, the company is financially sound and backed by a solid, nationally-recognized corporation.

This year we estimate 5,000-6,000 relocations providing our services to National Account/Fortune 100 companies across the country. At present, we service the contiguous U.S., and will soon expand to the international market as well.

ABRS is a rapidly-expanding company looking to increase service abilities by adding additional qualified, experienced drivers to our team. At Auto & Boat we pride ourselves on being a driver-oriented, driver friendly organization.

**We** believe that our continued success can be directly attributed to the professional drivers on our staff; without them we cannot succeed. Our drivers have a voice—we encourage your input and strive to represent and reward you in the best ways possible.
